

# Announcing...

## ajccutrac

We know you are busy and don't always have time to manage your vendors or follow up on all your purchase orders. You want to place an order and receive it— expecting that it will be shipped on time. We understand—we want the same thing.

*That's why we developed **accutrac**. To make your job easier.*

**ajccutrac** has three parts built on our foundation of communication:

1. A commitment to **100% order confirmation** in writing.
2. A **web portal** that allows you to check on any open order or recent shipment.
3. The third is **shipment notification** email sent to you the day we ship your order.

- **Save Time**

- **Reduce Anxiety**

- **Real Time Updates**

- **One Click Tracking Information**

**Order Confirmation** All orders are confirmed in writing - usually within 4-6 hours of receiving the PO.

**Web Portal** By logging onto [ajdoor.com](http://ajdoor.com) you can view the real-time status of your orders. No need to wonder if your PO has been received or when we'll ship it. The information is all at your fingertips.

Once an order is confirmed, you can view it on **accutrac**. It will have a status of "Scheduled", "Scheduled to Ship", "Shipped", "Back Order", or "Partial Ship". In addition, you can easily obtain the tracking information for your shipped orders. Just give us a call and we'll set up your secure Username and Password.

**Shipment Notification** Every afternoon AJ will send an email for all orders shipped that day. The shipped report will list the PO Number, Part Numbers, LTL Carrier and PRO Numbers.
